SUMMARY

Full Stack Developer with over 4 years of experience creating scalable and customized digital solutions. Specialized in React, Node.js, PHP, and Docker, with a focus on performance, responsive design, and system integration.

I have collaborated on the development of projects for various companies, always ensuring high design fidelity, optimizing user experience, and delivering efficient solutions with WordPress, CraftCMS, Strapi, and Next.js. Additionally, I have experience in implementing RESTful APIs, AWS, and scalable architecture.

Key Technologies: React, Next.js, Node.js, PHP, Laravel, AWS, Tailwind, Docker.

EXPERIENCE

Mid-Level Fullstack Developer

DAYTWO   **June 2022 - July 2024, São Paulo, Brazil (Norway Remote)**

Developed and optimized responsive web applications using React, Next.js, Node.js, and PHP, ensuring the design was faithfully implemented based on Figma. I utilized CraftCMS to manage dynamic content, significantly reducing publishing time. I enhanced page performance by up to 50% through optimizations such as Tailwind, asset minification, and lazy loading. Additionally, I implemented Docker to standardize environments and streamline development and deployment processes.

Key Technologies: React, Next.js, Node.js, PHP, CraftCMS, Tailwind, Docker, Figma, Asset Minification, Lazy Loading.

Junior Web Developer

FutureBrand São Paulo   **October 2021 - June 2022, São Paulo, Brazil**

Developed customized WordPress websites, enhancing user experience and increasing retention by 35%. I used React.js and Next.js to create dynamic, responsive interfaces, ensuring adaptation to different devices. I worked closely with designers to translate Figma layouts into precise code and implemented SEO strategies and performance optimization, improving page indexing and reducing load times.
Key Technologies: WordPress, React.js, Next.js, Figma, SEO, Performance Optimization.

Web Development Trainee

Tinpix   **June 2021 - October 2021, São Paulo, Brazil**

Developed and customized WordPress templates using Jade/Pug, PHP, ReactJS, and Vanilla JavaScript, focusing on optimizing the structure for easier maintenance. I collaborated with design teams to ensure visual fidelity and a seamless user experience, while also improving the development process by applying agile methodologies and best practices for version control.
Key Technologies: WordPress, Jade/Pug, PHP, ReactJS, Vanilla JavaScript, Agile Methodologies, Version Control.

.NET Development Trainee

Intermeio Payment Solutions   **September 2019 - December 2019, São Paulo, Brazil**

Developed back-end applications using .NET and C#, optimizing internal processes and integrating RESTful APIs. I also improved SQL queries, significantly reducing response times for complex queries.
Key Technologies: .NET, C#, RESTful APIs, SQL, SQL Queries.

SKILLS

HTML5

CSS | Sass | Tailwind

Javascript (ES15) | React.js | Next.js | Node.js

PHP | Laravel | Symphony | Twig | Pug

Git | Github | Bitbucket | Gitlab

MySQL | MariaDB | PostgreSQL

API's RESTful | JSON | WebSocket

Cloud Computing | AWS | Digital Ocean

PROJECTS

Nutritionist Karen Oliveira

Freelancer · nutrikarenoliveira.com.br · May 2024 – June 2024

· Designed and developed a responsive WordPress website using PHP, React, and jQuery, ensuring an intuitive user experience across all devices.
· Created custom functionalities and dynamic content with React and jQuery, enhancing interactivity and performance.
· Personally designed the website, ensuring pixel-perfect, visually consistent web pages that align with the project's goals.
· Optimized the website for SEO and performance, improving page load times and search engine ranking.

Nordic Batteries

DAYTWO · nordicbatteries.com · May 2023 – June 2023

· Developed a responsive and dynamic website using CraftCMS, PHP, and MySQL, ensuring efficient content management and smooth database performance.
· Integrated interactive features with React, enhancing functionality and improving user engagement.
· Maintained high design fidelity by translating Figma mockups into accurate, visually appealing pages.
· Optimized the website with SEO best practices and a scalable architecture for future growth.

Milenio Capital

FutureBrand São Paulo · https://www.milenio.capital · November 2021 – December 2021

· Developed a highly responsive and optimized website using HTML, CSS (Sass and Tailwind), JavaScript, and jQuery, ensuring seamless performance across mobile and desktop devices.
· Ensured design fidelity to Figma mockups, translating them into interactive and visually accurate user interfaces.
· Integrated SEO best practices and accessibility features to enhance user experience and improve website visibility.

EDUCATION

Bachelor's Degree in Computer Science

Universidade Paulista · São Paulo, Brazil · 2023

· I was awarded a 100% full scholarship due to my outstanding performance in the entrance exam, standing out among the top candidates in the selection process.
