SUMMARY

Full Stack Developer with over **4 years of experience** in building scalable and customized digital solutions for web platforms. Specialized in **React**, **Next.js**, **Node.js**, **PHP**, and **Docker**, with a strong focus on **performance**, **responsive design**, and **seamless system integration**. Solid background in developing and integrating complex systems using **Laravel**, **Strapi**, **Craft CMS**, **NestJS**, and **WordPress**, along with deployment experience on **AWS**, **Render**, and **DigitalOcean**.

I have contributed to projects across various industries, transforming high-fidelity **Figma** designs into efficient and maintainable code using technologies like **Tailwind CSS**, **SCSS**, **Pug**, and **Twig**. My skill set spans both **frontend and backend development**, **RESTful API integrations**, and database management with **MySQL**, **PostgreSQL**, and **Supabase**. I'm also experienced in working within **agile teams**, using tools such as **GitHub**, **Bitbucket**, **ClickUp**, **Monday**, and **Charlie**.

Key Technologies: React, Next.js, Node.js, TypeScript, PHP, Laravel, WordPress, Craft CMS, Strapi, NestJS, Svelte, MySQL, PostgreSQL, Supabase, Docker, AWS, Render, DigitalOcean, Tailwind CSS, SCSS, Pug, Twig, HTML5, JavaScript, REST APIs, Git, GitHub, Bitbucket.

EXPERIENCE

Full Stack Software Engineer

BAMHUB Media Brazil   **April 2025 - Present，São Paulo, Brazil**

- At BAMHUB Media I maintain responsive, high-performance web applications using **JavaScript**, **Svelte**, **HTML5**, and **CSS3**, with a strong focus on performance and accessibility.
- Translate **Figma** prototypes into precise, accessible user interfaces by applying best practices in **responsive design** and frontend optimization.
- Standardize development and deployment environments with **Docker**, reducing friction and inconsistencies across team workflows.
- Drive efficient collaboration within **agile squads** by managing tasks and version control through **Git**, **GitHub**, **Monday**, and **Charlie**.
- Lead the development of **BAMHUB Business Home**, a booking platform powered by **WooCommerce** and integrated with **external APIs** for real-time availability management, achieving up to **45% faster load times** and a **60% improvement** in mobile responsiveness.

Mid-level Full Stack Developer

DAYTWO   **June 2022 - July 2024，Oslo, Norway (Remote)**

- At DAYTWO, I developed and maintained responsive web applications using **Craft CMS**, **PHP (Laravel)**, **Twig**, and **MySQL**, ensuring accurate implementation of complex layouts based on **Figma** designs.
- Built and integrated custom modules, dynamic content structures, and **external APIs** to support real-time data exchange and editorial flexibility.
- Optimized frontend performance with **Tailwind CSS**, **SCSS**, and **JavaScript**, reducing load times on critical pages to under **1 second**.
- Delivered a scalable and intuitive content editing experience using **Twig** and **Craft CMS matrix blocks**, empowering non-technical users to manage content with ease.
- Contributed to key projects such as **Soloneiendon**, a real estate platform for the Norwegian market with dynamic listings and geolocated data, and **Kongsberg Agenda**, an event platform with interactive schedules and real-time updates, optimized for high-traffic environments.

Junior Web Developer

FutureBrand São Paulo   **October 2021 - June 2022，São Paulo, Brazil**

- Developed custom websites with a strong focus on **responsive design**, **performance**, and **SEO**, using **React.js** and **Next.js**.
- Translated **Figma** layouts into precise user interfaces, implementing advanced UI animations with **GSAP** for enhanced user experience.
- Improved page load speed and accessibility, contributing to an estimated **35% increase in user retention**.
- Applied **SCSS** for scalable styling and consistent visual structure, and used **MySQL** to manage structured data efficiently.
- Led the development of the **Milênio Capital** project, delivering a high-impact digital presence for the financial sector, with emphasis on responsiveness, visual fidelity, smooth animations, and SEO/performance optimization.

Web Development Intern

Tinpix   **June 2021 - October 2021，São Paulo, Brazil**

- Developed **WordPress** templates using **Jade/Pug**, **PHP**, **ReactJS**, and vanilla **JavaScript**, with a focus on performance, scalability, and clean code structure.
- Implemented responsive, pixel-perfect interfaces based on **Figma** designs, ensuring visual fidelity and consistency across devices.
- Created reusable components and a modular architecture with **SCSS**, reducing development time for new pages by approximately **25%**.
- Integrated dynamic content using **MySQL** and **external APIs**, enabling real-time updates and editorial flexibility.
- Contributed to the development of **Prêmio Dupont**, a content-rich digital platform designed to showcase award-winning projects in a visually engaging and accessible format. Worked closely with designers to ensure pixel-perfect implementation and visual consistency across devices. Focused on delivering a fully responsive experience, while enabling **non-technical users** to easily manage and update content through a modular, scalable CMS architecture.

Freelance Developer

Freelancer   **January 2020 - February 2021，Brazil**

- Developed custom websites and landing pages using **WordPress**, **HTML5**, **CSS (with Less)**, **JavaScript**, and **jQuery**, with a focus on responsive design and cross-browser compatibility.

• Configured local development environments with **XAMPP** and managed **MySQL** databases, including custom queries and performance optimizations for dynamic sites.
• Delivered complete digital solutions for small businesses and personal brands, handling theme customization, interface adjustments, and SEO-structured implementations.

.NET Development Intern

Intermeio Payment Solutions   **September 2019 - December 2019，São Paulo, Brazil**

• Developed and maintained backend systems using **.NET** and **C#**, supporting solutions used daily by over **100 internal users**.
• Integrated **RESTful APIs** across approximately **6 internal services**, reducing communication failures in critical processes.
• Optimized **SQL queries**, resulting in noticeable performance improvements in routines that previously took several seconds to execute.
• Refactored and maintained legacy code, helping reduce onboarding time for new developers and improving overall code clarity.
• Actively participated in **code reviews**, daily stand-ups, and sprint planning, contributing to consistent deliveries over a period of more than **3 months**.

SKILLS

HTML | CSS | SCSS | Less | Tailwind | Stylus

Javascript (ES15) | React.js | Next.js | Node.js | Nest.js | Svelte | NW.js

PHP | Twig | Laravel | Symfony | CodeIgniter

Git | Github | Bitbucket | Gitlab

MySQL | MariaDB | PostgreSQL | MongoDB

API's RESTful | JSON | WebSocket

Cloud Computing | AWS | Digital Ocean | Supabase | Render

PROJECT

Nutritionist Karen Oliveira

Freelance • nutrikarenoliveira.com.br

• Designed and developed a responsive **WordPress** website using **PHP**, **React**, and **jQuery**, ensuring an intuitive user experience across all devices.
• Created custom functionalities and dynamic content with **React** and **jQuery**, enhancing **interactivity** and **performance**.
• Personally designed the website, ensuring **pixel-perfect**, visually consistent web pages that align with the project's goals.
• Optimized the website for **SEO** and **load times**, improving **search engine ranking**.

Nordic Batteries

DAYTWO • nordicbatteries.com

• Developed a responsive and dynamic website using **CraftCMS**, **PHP**, and **MySQL**, ensuring efficient **content management** and smooth **database performance**.
• Integrated interactive features with **React**, enhancing **functionality** and improving **user engagement**.
• Maintained high design fidelity by translating **Figma** mockups into accurate, visually appealing pages.
• Optimized the website with **SEO best practices** and a **scalable architecture** for future growth.

Soloneiendom

DAYTWO • soloneiendom.no/

• Developed a responsive **real estate platform** using **Craft CMS** and **Twig**, ensuring strong **performance**, **accessibility**, and **visual consistency** across devices, from property listings to detail pages.
• Collaborated with designers to implement **modular and flexible content structures** using **matrix blocks**, maintaining brand consistency and enabling scalable content updates.
• Integrated **SEO best practices** and **accessibility features**, enhancing the user experience and increasing the site's visibility in search engines.

Nantes Mello Law Firm

Freelance • www.nantesmello.com/

• Developed a modern, responsive **corporate website** for **Nantes Mello** Law Firm using a **custom CMS**, ensuring fast **load times**, mobile optimization, and accessibility across platforms.
• Converted high-fidelity **Figma** designs into **pixel-perfect templates** using **SCSS**, **JavaScript**, and modern **frontend practices**, maintaining both visual consistency and strong **SEO performance**.
• Structured the frontend with **reusable components** and integrated **custom WordPress fields**, allowing editors to manage dynamic content without compromising layout integrity.

EDUCATION

BSc in Computer Science

UNIP • São Paulo, Brazil • 2023 • GPA equivalent: 3.56 / 4.0

• I was awarded a **100% full scholarship** due to my outstanding performance on the entrance exam, standing out among the top candidates in the selection process.
